LACRUZ® was founded in 2006 by Mr Andrea Cruzzolin and has become an important reference point in the viticulture sector.

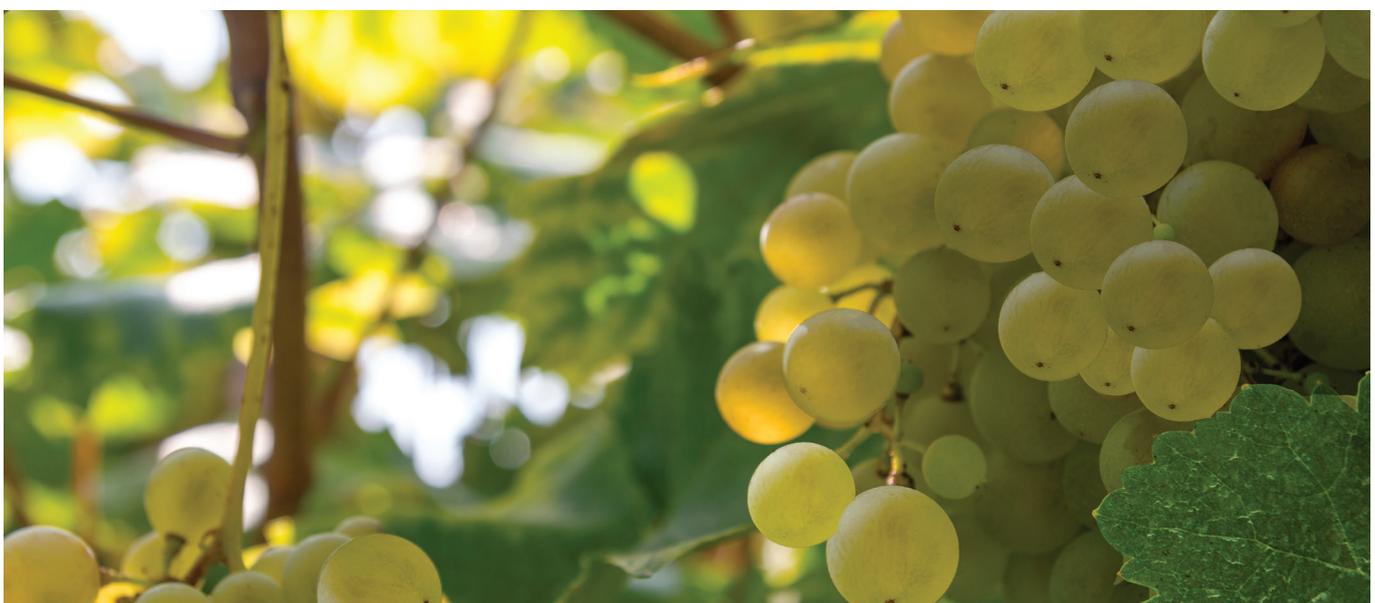

It grounds its roots in long experience and tests in a territory where the wine culture has ancestral origins. Its constant innovation and improvement of know-how in the technological and mechanical field and the endless research of new materials have set the basis for the creation of products intended for improved efficiency in this sector and for those using them.

LACRUZ® offers a wide range of products: spare parts, accessories for harvesting, binding and trimming, batteries, pruning shears, besides the sale/rent of grape harvesters.

Our high-quality after-market parts represent an alternative to the genuine products.

Rapidity and availability are demanded by customers and they have become the principles at the basis of our service, to face and cope with an even more global challenge.

LACRUZ®, a registered trademark since 2017, is looking into the future by expanding its business to new markets, heading to an international dimension, rich in useful exchanges and experiences.

Andrea Cruzolin established himself as the first producer of after-market parts for grape harvesters in Europe. Well-known at a global level, LACRUZ® was established in 2006 and became a registered trademark in 2017. The compatible spare parts by LACRUZ® represent a good alternative to original spare parts.

Reliable, tested and low-priced products: these are the distinguishing features of LACRUZ® range.

A team of experienced technicians identify the needs of the market, develop projects and moulds and select the most appropriate materials to manufacture parts, whose performances are constantly improved thanks to the feed-back of the market.

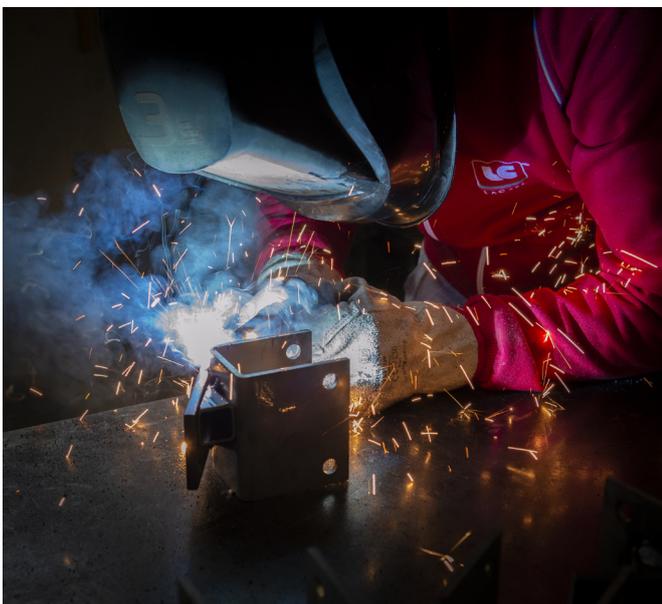

Ongoing investments in the research and development department lead to manufacturing innovative and future-oriented solutions with the highest quality standard.

LACRUZ® mechanics and experts of grape harvesters, take care of the service of the second-hand machineries and grape harvesters and are able to offer competent advice for any kind of technical request.

The know-how achieved by LACRUZ® creates solutions, not only for the general market, but also for specific requests of individual customers.

Thanks to a widespread sales network, LACRUZ® can assist its customers with care and expertise in every stage, up to the post-sales assistance, both in Italy and abroad.
